

SEPTEMBER 13th

On this day in...

2011: Thunderstorms produced 0.75 inch hail at Big Bear City and Highland. A funnel cloud was observed near Perris. Hail accumulated near Wrightwood and minor flash flooding covered roads in Pinon Hills.

Thunderstorms on this day in 2011 produced a spectacular lightning show over Garner Valley (upper right), minor flash flooding in Pinon Hills (lower left), and accumulating hail near Wrightwood.

1971: It was 100° in Palomar Mountain, the highest temperature on record. This occurred on eight other occasions.

1959: An intense thunderstorm hit east of Joshua Tree City between noon and 1 pm. Heavy debris flows came from the canyons and damaged numerous homes. Sand more than three feet deep covered some properties.
